

Attention Ohio Alerts subscribers: After December 31, 2017 Ohio Alerts will no longer send text notifications for Clear Fork to your cell phone. We will be using Twitter Fast Follow in place of Ohio Alerts.

You do not need a Twitter account to receive district text notifications with Fast Follow. Text messages will send to your phone by following the steps below. Note: Message and data rates may apply.

To get started:

1. Decide what usernames you want to receive text messages from (the usernames are highlighted below)
2. Open the texting app on your phone
3. In the To: area enter the numbers **40404**
4. In the message area: type **follow** and enter the **username** (see below) for each username you want to receive text message notifications from. You will need to do these steps for each username you want to follow.

For example, to receive notifications from Clear Fork Closing/Delay, type **follow closedelaycfvls** (to the number **40404**)

Clear Fork's Twitter usernames are highlighted below:

butlercfvls (Butler Elementary notifications)
bellvillecfvls (Bellville Elementary notifications)
mscfvls (Clear Fork Middle School notifications)
hscfvls (Clear Fork High School notifications)
districtcfvls (Clear Fork District notifications)
closedelaycfvls (Clear Fork Closing/Delay notifications)
athleticscfvls (Clear Fork Athletics notifications)

To turn off receiving notifications: Reply **OFF** or **STOP** or **LEAVE** to each username you are following.
